

ERC-8004 Agent Card

services:

swarm-ai-catalog → feed owner
loopmarket-book → feed owner

catalog feed
Mantaray root, items

bridge adapter:
item → give offer

book feed
recordstore root, offers

settlement

ACT grant =
proof of delivery

x402 endpoint

one identity, two services; the exchange's catalog becomes book liquidity unchanged; x402 carries the money leg and its ACT grant is the cheapest fulfilment oracle. Kept out of the shared data model: a single currency, a discovery indexer that can omit.
