

offer	id = sha256(canonical bytes)	
maker	amara	(= feed owner)
side	give	
thing	{piano-lesson}	unit: course
price	100	on Amara's own scale
service	2026-09-01 .. 2027-01-01	
region	disc (46.05, 14.50), r = 5 km	
valid	2026-09-01 .. 2026-10-01	
pins	catalogue root 05ca09...	registry 4.1
carried	bond, oracle, arbitrator	(enforced in P3)

Every intention has this one form. Exactly one side is a thing, the other is the maker's own scale; a want is the same record with the side flipped.
